HAREESH RAVILALA

ReactJS Developer

Hyderabad, India | +91-9703394274 | ravilalahareesh3@gmail.com

PROFESSIONAL SUMMARY

React.js Developer with 4 years of experience in building scalable enterprise web applications using React.js, JavaScript, TypeScript, Redux Toolkit, React Router, and REST APIs. Proven expertise in frontend performance optimization, reusable component development, state management, JWT authentication, and responsive UI design. Strong collaborator with experience delivering high-quality solutions in Agile/Scrum environments.

TECHNICAL SKILLS

- **Frontend:** React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3.
- **State Management:** Redux, Redux Toolkit, Context API, React Hooks (useState, useEffect, useMemo, useCallback)
- **Routing & Auth:** React Router, Dynamic Routing, Protected Routes, JWT Authentication, Role-Based Access Control.
- **API Integration:** REST APIs, Axios, Fetch API, Postman
- **UI & Styling:** Bootstrap, Tailwind CSS, Responsive Web Design
- **Database:** MS SQL
- **Version Control & Tools:** Git, GitHub, VS Code, Postman
- **Methodologies:** Agile/Scrum, Component-Based Architecture.

WORK EXPERIENCE

Tata Consultancy Services Ltd. — Hyderabad, India

Systems Engineer | ReactJS Developer *May 2022 – Present*

- Engineered and maintained scalable React.js applications supporting enterprise-level, high-traffic business operations.
- Built **20+ reusable UI components** using React.js, Hooks, and Bootstrap, improving code reusability by **40%** and accelerating development cycles.
- Optimized frontend performance by **35%** through lazy loading, memoization (React.memo, useMemo, useCallback), and code splitting.
- Integrated REST APIs using Axios and Fetch for real-time operations including tracking, inventory, and user management.
- Implemented centralized state management using Redux and Redux Toolkit, reducing redundant API calls and improving application scalability.
- Developed secure JWT-based authentication with role-based access control and protected routing using React Router.
- Collaborated cross-functionally in Agile/Scrum environments to deliver quality releases on schedule.

PROJECT EXPERIENCE

Temple Booking & Management System

- Developed scalable order management and dashboard modules using React.js component-based architecture for high-traffic production environments.
- Improved code maintainability by **40%** through reusable, modular frontend components.
- Integrated RESTful APIs using Axios for real-time inventory updates, order processing, and customer account management.
- Optimized Redux workflows, reducing unnecessary re-renders and improving UI performance by **30%**.
- Implemented secure navigation workflows with protected routes using React Router.
- Enhanced responsive design and cross-browser compatibility across desktop, tablet, and mobile devices.
- Collaborated with backend and QA teams in Agile/Scrum to ensure timely, stable releases.

CERTIFICATIONS

- ReactJS Developer Certification — Udemy
- Google Cloud Associate Certification (GCP)

EDUCATION

Bachelor of Technology — Mechanical Engineering

Jawaharlal Nehru Technological University | 2021 | CGPA: 7.12
